

The Division of Medical Genetics in the Department of Pediatrics at Stanford University seeks a board eligible/certified Medical Geneticist to join the Department and Division as an Assistant/Associate/Professor in the Clinician Educator line.

- The major criterion for appointment, reappointment and promotion for Clinician Educators, including Clinician Educators (Affiliated), is excellence in the overall mix of clinical care and clinical teaching appropriate to the programmatic need the individual is expected to fulfill.

Faculty rank will be determined by the qualifications and experience of the successful candidate.

We expect the successful candidate to participate primarily in the care of patients under the care of the medical genetics service, biochemical genetics service and the perinatal genetics service. The successful candidate will be involved in formal and informal teaching of Medical Genetics residents, residents and fellows in other specialties, medical students and other graduate students.

The activities of the Division/Department are diverse and include participation in the education of Medical Genetics residents and students in the Masters of Human Genetics and Genetic Counseling Program.

Successful candidates should have an MD or equivalent degree with board eligibility or board certification in medical genetics and genomics and have medical licensure in California by the starting date.

Applications will be reviewed beginning January 2, 2023 and accepted until the position is filled.

### Equal Employment Opportunity Statement

Stanford is an equal employment opportunity and affirmative action employer. All qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, national origin, disability, protected veteran status, or any other characteristic protected by law. Stanford also welcomes applications from others who would bring additional dimensions to the University's research, teaching, and clinical missions.

*\*Consistent with its obligations under the law, the University will provide reasonable accommodation to any employee with a disability who requires accommodation to perform the essential functions of his or her job.*

At Stanford, we strive to ensure that a diversity of cultures, races and ethnicities, genders, political and religious beliefs, physical and learning differences, sexual orientations and identities is thriving on our campus. Such diversity will inspire new angles of inquiry, new modes of analysis, new discoveries and new solutions.
